**"The Star Laws, A Divine Plan by Which One Can Live," Nape Zi**

The Universal Laws and the Spiritual Laws came into existence through the thought of the Creator in the creation of the Universe as you would know them. Star Laws are encoding. These Laws are memory and encoding that is within the energies of Mother Earth, the energies within your physical body, the energies of realms that are beyond the beyond the beyond – beyond your understanding. Beyond all things is where you will find the beginnings of these Laws as you would understand them to be symbols as well.

They are designed for all not to forget where their Dawning of Existence began. Each of these Laws are appearing now and becoming ever so present in the mind's eye, as well as in your physical realm. Your realm is to awaken and help you to remember. Each of these Laws is significant. They have been carried down through the ages.

These Earth Star Creation teachings connect you with the names and activities of your Earth (Indian, diva, fairy) guides, Ascended Masters and Angel guides, Star Nation guides and your Peoples of Creation so you may walk the good Red Road with your guides from all realms.

Reverend Arlene Raedel has been a presenter at the Harmony Grove Spiritualist Association Meet Up (Debunking Mediumship) and has walked the Star Knowledge Way since 1997 and presents these teachings with Chief Golden Light Eagles permission.
