Perhaps you already have some skills under your belt: you might feel the emotions of others, know what someone is going to say before they say it, or sense whether it's safe to get in that car or on that airplane. But do you actually know how to conjure up specific clairvoyant visions or hear messages from your guides as clearly as you would like, whenever you desire? Each lesson includes an audio meditation.

Each lesson includes an audio meditation and this is what you will learn:

What clairvoyant reading is all about and why it's so easy to master

How to prepare yourself to do a reading

The importance of running and calling back your energy, and working with your aura

How to open your third eye to begin seeing psychic visions

The Clairvoyant Technique: reading yourself and others

How to read and improve relationships and goals

Psychic hearing & channeling, and how to hear and work with your guides

The art of combining clairvoyance with instant knowing and telepathy

ABOUT THE FACILITATOR: A well known psychic and educator, Arlene Raedel's mission is to show people that psychic abilities are not rare, or unique to a few gifted individuals: they are as natural as reading and writing. Arlene Raedel is a psychic intuitive consultant who provides the soothing voice you hear on the audio meditations. Arlene helps her clients make decisions, resolve long-standing issues, and re-align their energies so they can achieve their goals and ultimately find greater happiness and fulfillment in all areas of life. She conducts basic intuitive consultations, chakra readings and clearings, and past life readings. She resides in the Riverside area.

Certification Students please note: Rev. Arlene Raedel is a Credit Class Mediumship Instructor in the HGSA Education Program, which offers Mediumship Certification. This year-long ongoing series, "Medium Development Class", qualifies for the HGSA Mediumship Certification requirement.
